

Office of Public School Construction (OPSC) and Division of the State Architect (DSA) Pre-SAB Meetings

In a recent letter addressed to the Coalition for Adequate School Housing the Department of General Services (DGS) Acting Executive Officer of the Office of Public School Construction (OPSC), Lisa Silverman, announced that DGS would make their program updates available to all school districts and stakeholders, directly.

As of April 28, 2010 OPSC and DSA will present their updates at 9:00 am on State Allocation Board meeting dates (usually the fourth Wednesday every month) in the Ziggurat Building located at 707 Third Street, West Sacramento. School District staff, consultants, lobbyists, and other interested parties are invited to attend.

These two State agencies want to provide the audience with current information and directly answer questions. The meetings are also web cast to provide access to those who are unable to travel.

OPSC and DSA are breaking a long tradition going back to the mid 1980's at least, of attending the CASH monthly meetings.

CASH has arranged and announced it will open the CSAC conference center early for attendees to view the 9:00 a.m. "Pre-SAB Meeting Updates" hosted by the Department of General Services via web cast on the big screen. CASH welcomes attendees to use this venue as meeting and networking space before we hold our regularly scheduled General Membership meeting at 11:00 a.m. and any other meetings that are scheduled that day.
